

**Description:**

- Adjustable Meter Nut Wrenches are designed for installing and removing water and gas valves that are difficult to reach and in tight confined spaces
- Wrench fits 5/8" 3/4" and 1" swivel nut meters (other sizes available upon request)
- Low profile wrench can reach valves to a depth of 12" (shaft extensions can be added for deeper valves)
- Unique tooth pattern on wrench head allows installation and removal of valves by simply rotating wrench

**Specifications:**

- Handle is made from 1" heavy wall round tubing, 18" long with a 4" long vinyl grip
- Adjustable wrench head is fabricated from 1/2" steel plate
- 5/8" & 3/4" wrench head has a 1.635 opening
- 1" wrench head has a 1.938 opening
- Wrench has 7 positions starting at 90\* in 18\* increments to 180\*
- Gold zinc plating for weather resistance
